Mars Surface Explorers,

Congratulations for participating in the Mars Autonomous Rover Rally Design Competition. Many of you did some great work and we've enjoyed seeing your algorithms in action! Thank you for all your submissions, and now it comes down to the winning teams. We will not have a general webcast because we have so many time zones involved. So, we will make the announcement right here and now.

We have posted the videos of the winning designs, and we hope to get the winning teams to also send us a short video of themselves explaining their strategy. Everyone on teams that submitted a working design will also receive a certificate from NASA Texas Space Grant for their outstanding efforts to develop
a robust autonomous rover for Mars exploration.

Now to the winning teams.....
All of these teams managed to reach all or most of the waypoints in record time - huge congrats and well done! Here are the team statistics....

TEAM	City	State/Region	Country	Waypoints	Time
AAUB Voyagers	Lalmonirhat	Rangpur	Bangladesh	20	0:29:43
Team Durbar	Khulna	Khulna	Bangladesh	20	0:35:53
Tardigrade	Austin	Texas	United States	20	0:41:45
Mavericks	Arlington	Texas	United States	20	0:46:45
CUET Mongolchari	Chittagong	Chittagong	Bangladesh	20	0:47:35
RUET Exover	Rajshahi	Rajshahi	Bangladesh	16	0:52:05

The entire competition and prizes are sponsored by NASA Texas Space Grant Consortium and Aerospace Engineering at Texas A&M University. Your development and execution team is from the ASTRO Lab, directed by Dr Greg Chamitoff. STEMX365 is one of our prize sponsors and was also instrumental in engaging student teams around the world, and especially in Bangladesh (which gave us many of our winning teams!) SimDynamX is also a prize sponsor and leads commercial development and applications for Space Teams PRO.

1st	Place Prize	AAUB Voyagers	$4000 USD
2nd	Place Prize	Team Durbar	$3000 USD
3rd	Place Prize	Tardigrade	$2500 USD
4th	Place Prize	Mavericks	$2500 USD
5th	Place Prize	CUET Mongolchari	$1000 USD
6th	Place Prize	RUET Exover	$500 USD

Congratulations to all teams for a great competition.
Checkout the winning team videos on our Youtube page here….

Winning Sim Recordings - STU 3 Mars Autonomous Rover Rally

We will also be posting the team strategy discussion videos from the winning teams as soon

as we get them.

Thank you for participating in the Mars Autonomous Rover Rally Design Challenge. More design challenges are on the way for 2026! We welcome your feedback and input. Please take a minute to fill out our brief survey found here....
